Canon EOS 5D Mark II Battery Replacement

This guide will show users how to replace the battery.

Written By: Mike Seed

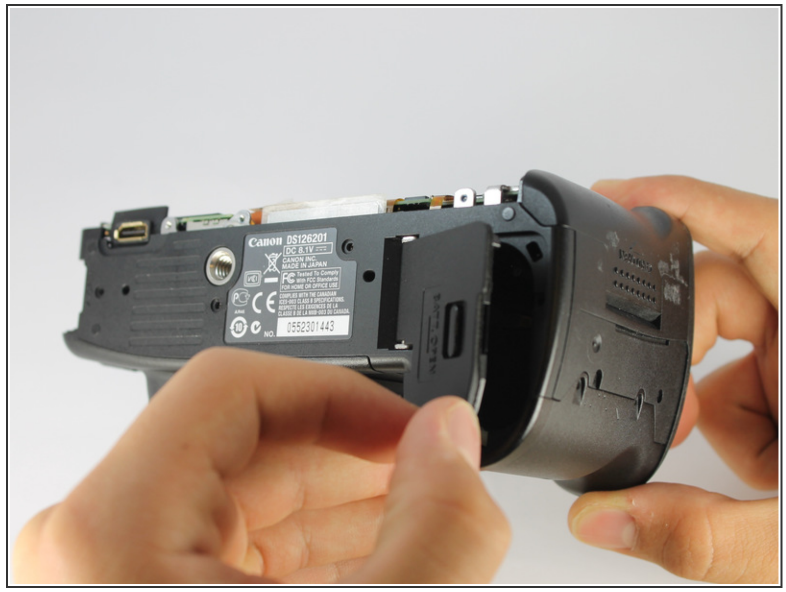

INTRODUCTION

This guide will show users the first step of performing a hard reset, removing the battery.

Step 1 — Battery

- Open the battery flap by pressing the button on the flap in a direction parallel to the bottom of the device while also pulling away from the device.

Step 2

- Free the battery by pressing the white lever away from the battery.
- Pull out the now loose battery.
- ⓘ If you are performing a hard reset, the next step is to follow the backup battery replacement guide.

To reassemble your device, follow these instructions in reverse order.
